EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jeffrey Karceski on March 17, 2008.

The application has been amended as follows:

Change the title from "Seal Arrangement" to --Seal Arrangement for a Piston Valve--.

On page 1, line 1 (the examiner is counting the lines of text and not the spaces between text), above "The invention relates", insert the heading --FIELD OF THE INVENTION--.

On page 1, line 3, above "In the railway industry", insert the heading --BACKGROUND OF THE INVENTION--.

On page 1, line 21, above "The present invention seeks", insert the heading --SUMMARY OF THE INVENTION--.

On page 2, line 15, above the first "Fig. 1 shows", insert the heading --BRIEF DESCRIPTION OF THE DRAWING--.

On page 2, line 16, above the second "Fig. 1 shows", insert the heading --DETAILED DESCRIPTION OF THE INVENTION--.

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: In Fig. 1, reference designation --8-- is to be added with a line pointing to the

choke at the upstream side. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of the claims is a seal arrangement having the combination of a sliding seal on a moving body that slides on a surface of a second body with which the surface of this second body has inclusions or micro-cracks that are both substantially aligned and parallel to the direction of motion of the moving seal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Henley, Miyasaka, and Calabrese disclose anodized aluminum with micro-cracks. Scheffel, Frei, Claycomb, Smith and Berry disclose piston valves with O-rings as sealing arrangements.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Bastianelli whose telephone number is (571) 272-4921. The examiner can normally be reached on M-Th (8-6:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Greg Huson can be reached on (571) 272-4887. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
